YorkNexo

“The map to your campus life.”

Marketing pitch for SB/ENTR3400 A prepared by:

Aarda Suresh (220803888)
Aseel Mohammed (220118675)

Market Opportunity & Problem: Why YorkNexo?

Students Miss What's Happening

Campus events are scattered across:

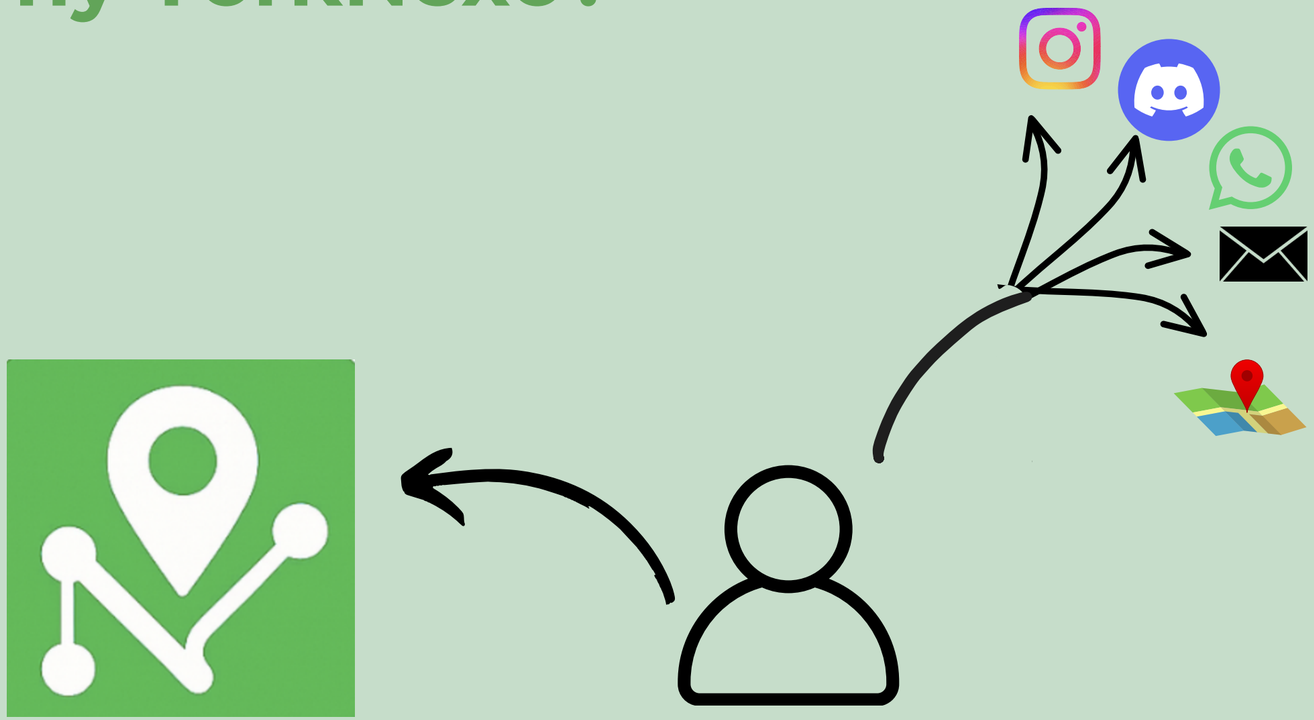
- Social media
- Posters on campus
- YU Connect, etc.

There's no centralized platform to check:

- What's happening right now
- Where there's free food
- Which study spaces are open or busy

Clubs & Faculties Struggle Too

- Promotion must happen across 4–5 platforms
- No real-time metrics or engagement tracking
- Tools are static, fragmented, and outdated



Opportunity

York has 55,000+ students with high mobile and social media use.

A **centralized, real-time campus hub** solves a daily, high-frequency problem and benefits from strong network effects:

More students + more clubs = more value.

Product overview

What is YorkNexo ?

A real time campus event and social discovery app that shows students what's happening right now on a live interactive map '

Key feature :

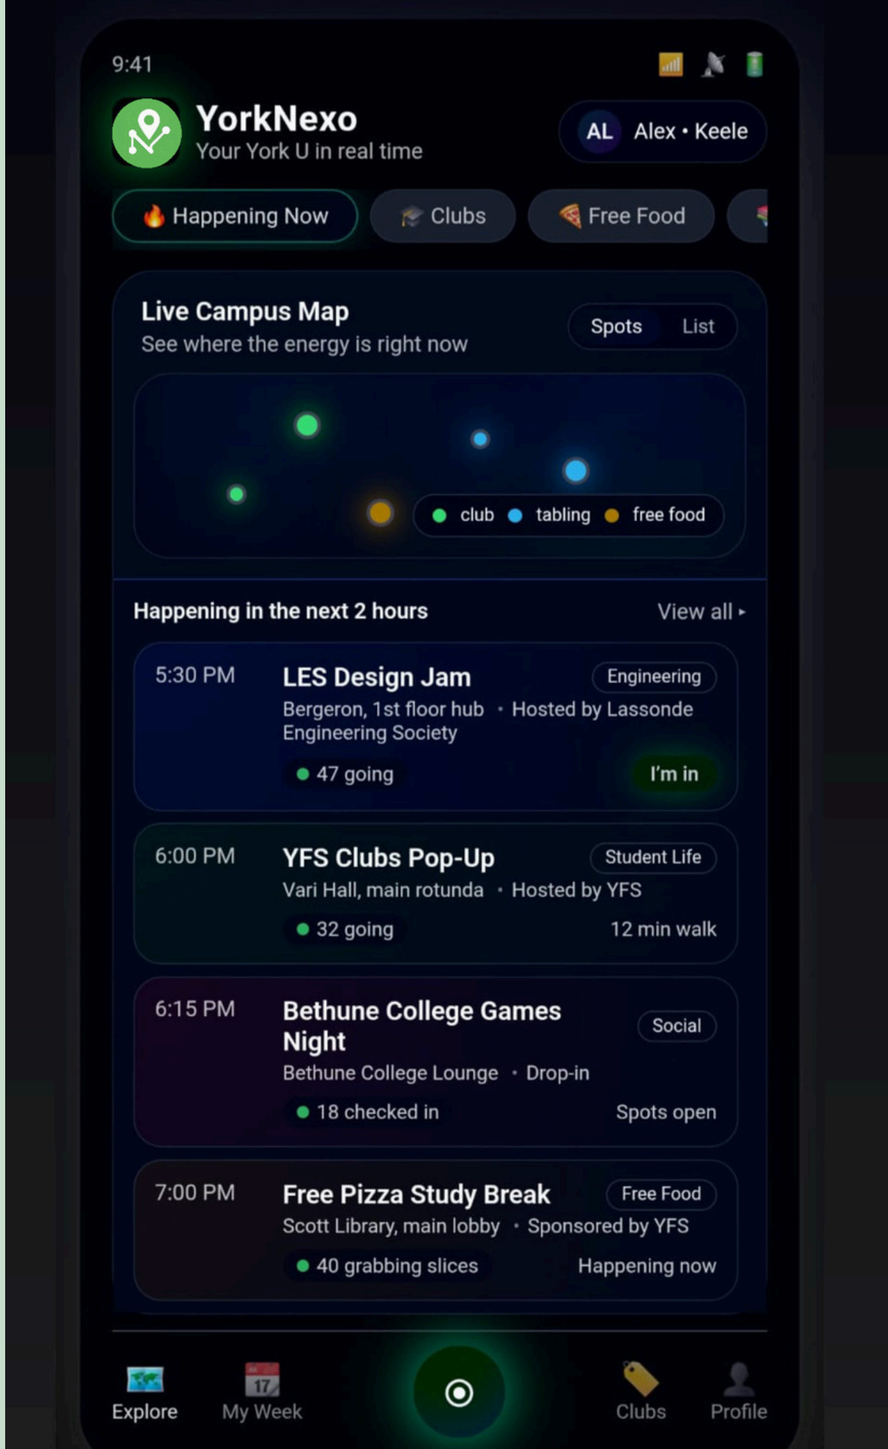
Real-Time Campus Map - Live, dynamic map showing actuve spots and ongoing events

Friend Check-ins - See which friends are attending events or following clubs.

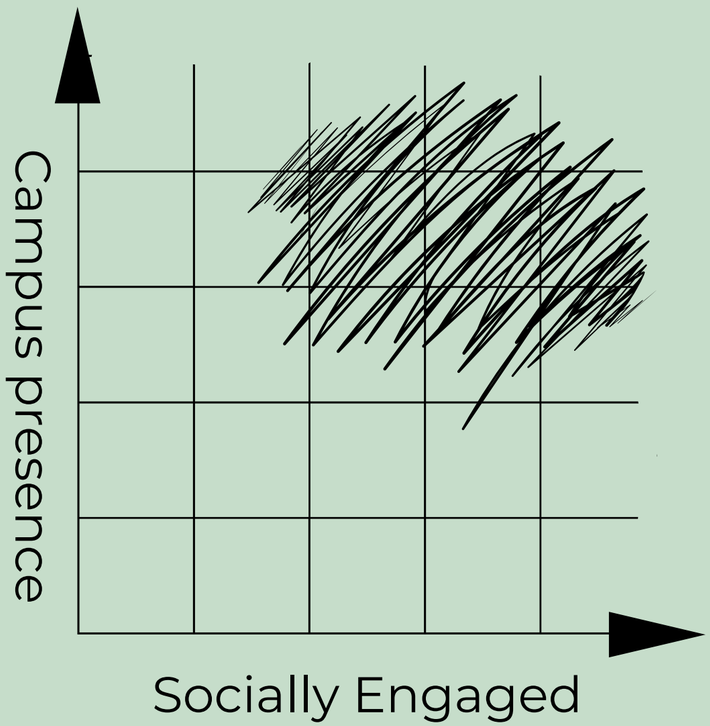
Club Insight Profiles - View club details, member counts, and mutual connections, and upcoming events

Personalized for you - Tailored suggestions based on your network and interests

Navigation and Event Info - Get walking times, location context, and event capacity indicators to help choose best and safest option.



Target Market & Segmentation
Who is YorkNexo built for?



Primary Users:

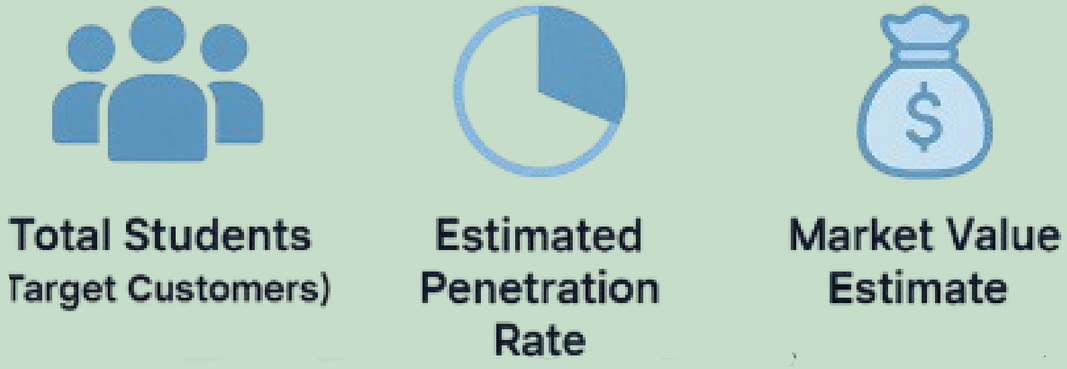
- York Students (17–25)
- Commuters
- Socially active / involved
- Students seeking connection

Secondary segments:

- Clubs &Colleges
- Campus Services
- Campus Vendor

Alex — 3rd-Year, Lassonde

Market Size Estimate



Total Students (Target Customers)

Approx. 55,000 York students

Estimated Penetration Rate

Social apps for students typically target early adopters first.

Assume initial penetration: **15–20%** (Year 1)

= **8,000–11,000 users**

Market Value Estimate

If monetized via campus advertisers/clubs:

$2–$3 per active user per month, potential revenue

→ ~$240k–$400k yearly potential

Competitive Landscape & Positioning
Where YorkNexo Fits Among Existing Tools

YU-connect:

York's official student organization platform

- **Strength**: Centralized and officially supported.
- **Limitation**: Web-focused, form-heavy, and not built for live discovery.
- **Role:** The administrative backbone for student life.:

Instagram/ Tiktok/mail:

Students see events through stories, reels, and posts.

- **Strength**: Highly visual, familiar, and widely used.
- L**imitation: I**nformation is scattered and is algorithm-dependent
- **Role:** A promotional channel

Discord/ Groupchats:

Used to share updates and build community.

- **Strength:** Strong engagement within existing groups.
- **Limitation**: Closed, fragmented, and only useful if you're already inside the right server or chat.
- **Role**: A private community layer

YorkNexo:

Real-time campus activity map.

- **Strength:** Live map, instant visibility, and centralized UI.
- **Limitation:** Requires adoption and onboarding to reach full network value.
- **Role**: The real-time discovery layer

Market Objectives

- Acquire 3,000 users within the first 3 months of launch
- Onboard 80+ student clubs to actively post events
- Achieve 40% monthly active user rate
- Partner with 3 campus departments for official promotion
- Reach 500 daily active users by the end of the semester

Marketing Mix

Product

- **Core Experience:** Live campus activity map, event feed, capacity status, walk-time estimates and free food + study space tags.
- **For Students:** Verified student-only access, one-tap RSVPs, and real-time campus map visibility.
- **For Clubs & Councils:** Event creation tools, attendance tracking + waitlists, engagement analytics, and optional incentives.
- **Design Principles:** Mobile-first, fast and intuitive, easy to learn, seamless navigation, and privacy-aware.

Price

- **Students:** Always free, full access to events, map, RSVPs, and notifications.
- **Clubs & Organizations:** Free event posting with optional Pro upgrades for boosted visibility, targeted outreach, and analytics. Paid events include a service fee per ticket.
- **Campus Vendors & Partners:** Sponsored placements, featured pins, and promotional banners. Revenue-share model: vendors contribute a percentage of sales made through the app.

Place

- **App Store / Google Play:** York Nexo will be available for free download on both platforms, making it easily accessible to all students with quick York-email sign-in.
- **Campus Engagement Booths:** Pop-up booths in high-traffic areas (Vari Hall, Student Centre, Colleges) will encourage instant downloads through QR codes and live demos.
- **Club & Campus Collaborations:** Partnerships with student clubs, college councils, and campus services will help promote the app through their events, networks, and social channels.

Promotions

- **Awareness:** Posters, digital ads, and campus screens to introduce York Nexo across campus.
- **Information:** Live demos at club meetings and pop-up booths to show how the app works.
- **Attitude-Building:** Fun, youthful branding that reflects student life and encourages curiosity.
- **Call-to-Action:** QR codes for instant download, placed on booths, posters, and social posts.

Communication Strategy

Inbound Tools

- App store optimization
- Searchable events listing
- Club & student event postings

Mix of Media

- Digital-first: Instagram, TikTok, Discord
- Campus traditional: Posters, booths, SC&LD partnerships

Outbound Tools

- Social media campaigns
- Sponsored posts with campus influencers
- Email blasts via YU Connect
- Class announcement partnerships

Implementation Plan
Launching YorkNexo

Phase 1: MVP & Beta (Weeks 1–4)

Test with early adopters

Core map, posting, notifications

Pilot with clubs and collages

Collect feedback + fix usability gaps

Phase 2: Soft Launch (Weeks 5–6)

Awareness + onboarding

Tabling, demos, QR posters

Promote through councils + SCLD

Target: 500–1,000 users + 20–30 clubs

Phase 3: Full Launch (Week 7+)

Scale with high-traffic moments

Orientation booths + campus screens

Reels/TikToks showing “Happening Now”

Goal: 3,000+ users and 80+ clubs

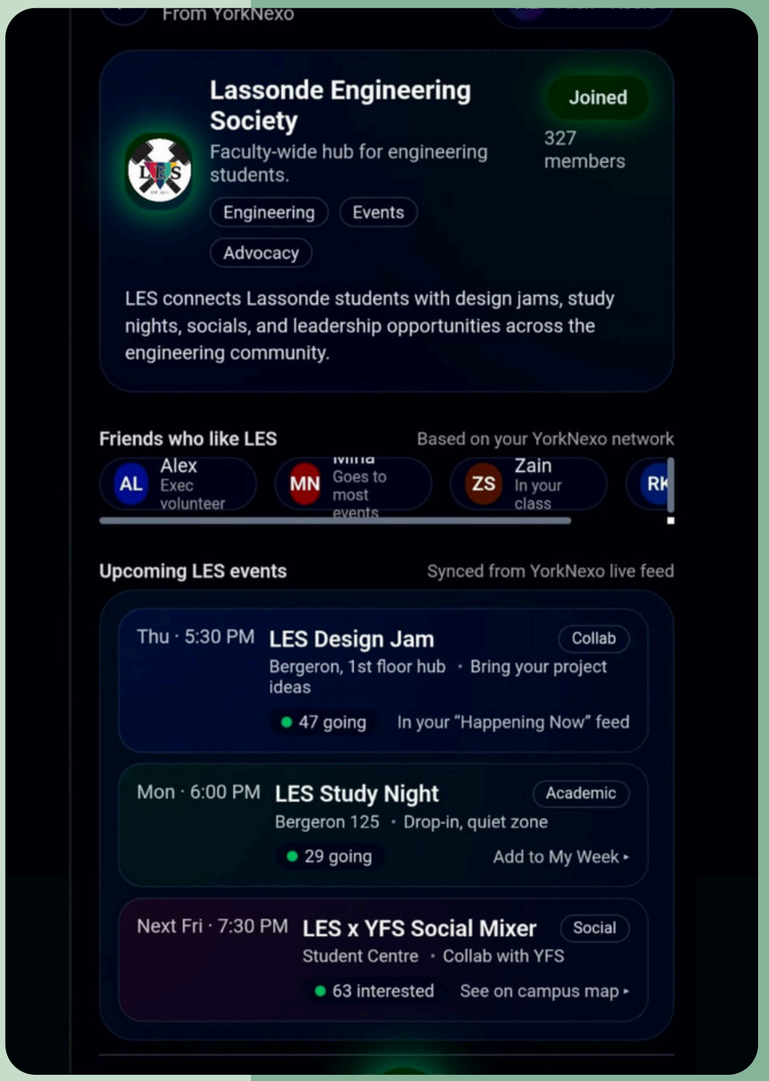
Phase 4: Optimization & Growth

Improve + monetize

Activate Pro tier + partner placements

Use analytics to refine UX, notifications & rewards

Focus on retention + monthly active usage



Conclusion

YorkNexo is here to bring campus life closer, helping students find connection, community, and moments that matter. With a clear need and a strong vision, it’s built to strengthen engagement, support well-being, and grow with every student who joins.

YorkNexo — the map to your campus life.
